Data: from 122 surveys 11/2014-12/2018. *: Nesting species.

· Nesting species.

Sighting Frequency: bar width indicates the frequency of sighting; i.e. the wider the bar is, the more likely the species is seen in the specific month.

Habitat

G: Ground.

Sh: Shrub.

Tr: Tree.

PC: Ponds and Creeks; including land and vegetation by ponds and creeks.

F: Flyover; restricting to birds that are not interacting with the habitat below, such as high-flying Turkey Vulture.

U: Unknown; birds were heard only.

all the time (80-100 %)
most of the time (60-79 %)

half of the time (40-59 %)

- sometimes (20-39 %)
- o rarely or never (0-19%)
